

RETRIEVER[®] 20T

THE RETRIEVER ADVANTAGE

No Idle System™

Load and unload payloads up to 40,000 lbs.* with the truck's engine turned OFF

* Payload based on chassis, chassis options, and selected Retriever options.

Patented Bed Design

The Retriever's curved deck creates the lowest loading angle of any similar product

Greater Flexibility

One Retriever can do the work of several different types of trucks

TESTIMONIAL

"The Versatran Retriever is easy to operate, and from a functionality standpoint, the air operated Retriever outperforms other hydraulic operated deck systems, as it alleviates concerns with any environmental issues caused by fluid spills, and cold weather down time awaiting hydraulic system warm up."

Brent Wentworth, Chef's Rent All, SD Berkley, MI
